SOTA Summer Games: Applying Gaming Techniques to Adult Learning Theory

Friday, July 27, 2012

The State Library of Ohio
Conference Room D
274 East First Avenue
Columbus, Ohio 43201

Adults learn more when they are engaged with the content they are learning. Integrating gaming into your training sessions improves engagement during in-person and online training.

The State of Ohio Training Association is excited to welcome Debra Riley of the Ohio Bureau of Workers Compensation to speak on the topic of gaming and learning, just in time for the Summer Olympics. This half-day workshop will highlight how to use interactive formats to facilitate review and how to debrief technical and in-depth content.

SOTA participants will also find themselves competing for the SOTA Gold Medal in a lighthearted game of "Battle Decks". Battle Decks is an uproarious take on presenting with PowerPoint on-the-fly. Because it incorporates elements of storytelling and improvisation with gaming and learning, it's a perfect "tie and apply" way to bring our 2011-2012 season to a close. Do you have what it takes to be the SOTA Battle Decks champion?

You will be able to:

- Define the functions of review and debrief
- Identify uses of games for review in training
- Create a training game using one of the formats provided

Agenda

12:30-1:00:	Registration
1:00-1:15:	Welcome
1:15-2:30:	Debra Riley: "Effective Content Review"
